

nova naturstrom contract form

By choosing **nova naturstrom**, green electricity produced exclusively by renewable forms of energy, you are adopting a responsible approach and making an active contribution to environmental protection by reducing CO₂ emissions.

nova naturstrom is undergoing further development and will provide renewable power from national energy generation plants up to an extent of 64%* by 2015, whereby hydropower, biomass, wind and photovoltaic resources are being used.

In addition to the local character and the sustainability of **nova naturstrom**, Leo is moreover contributing to the further development of ecological energy generation in Luxembourg. Leo continues to focus its activities on new plants and is committed to integrating them into its existing portfolio of renewable energies.

In 2015, therefore, more than one third of your **nova naturstrom** mix will be provided by hydroelectric power plants with a maximum age at January 1, 2015 of 3 years, or facilities that have been renovated within the last 3 years.

The **nova naturstrom** energy mix for 2015 ⁽¹⁾:

- 37% Hydro Luxembourg
- 18% Biomass Luxembourg
- 8% Wind power Luxembourg
- 1% Photovoltaic Luxembourg
- 36% Hydro other EU-countries

⁽¹⁾ The **nova naturstrom** energy mix can vary depending on customer demand and the availability of renewable energies, the production of which is subject to the influence of a number of factors including weather conditions.

Your «green» contribution with nova naturstrom

By selecting **nova naturstrom** you are deciding in favour of a premium product that you can opt for in return for the payment of an additional charge of **EUR 0.0035 per kWh** (excluding VAT) on the **naturstrom** tariff.

naturstrom prices do not include VAT (8% as of January 1, 2015), metering and any other legal charges such as electricity tax (taxe d'électricité), which are established by the authorities.

If you have any questions, feel free to contact us at serviceline@leoenergy.lu by freephone on 8006-4848 or from abroad on +352 2639-4848, from Monday to Friday from 08:00 h to 20:00 h and on Saturdays from 09:00 h to 18:00 h.

We are also available at our customer service centres in the La Belle Etoile shopping centre and at Cactus Ingeldorf (Monday to Thursday: 09:00 h - 20:00 h, Friday: 09:00 h - 21:00 h, Saturday: 09:00 h - 18:00 h), and at our Luxembourg office, 9, boulevard Roosevelt, and also in Esch-sur-Alzette, 2, Domaine du Schlossgoard (Monday to Friday: 08:00 h - 17:30 h).

The **nova naturstrom** undertaking is governed by these general supply conditions. In the event of any discrepancies between this undertaking and the general supply conditions, this undertaking will prevail over the general conditions.

Term of the nova naturstrom contract

The **nova naturstrom** supply will commence automatically on the 1st day of the month following receipt of this undertaking, provided it has reached us before the 15th of the current month. The initial subscription period for **nova naturstrom** will run from the 1st day of the month in the current year following receipt of this undertaking up to the end of the following year. This undertaking will be tacitly renewed for periods of one year, unless either of the parties objects, within the timelines stipulated in the general supply conditions.

Termination of the nova naturstrom undertaking

In the event of a change in rates, pursuant to the general conditions customers may freely terminate their **nova naturstrom** supply if they do not accept the new rates, on notice at least to the end of the current month plus one month. When termination becomes effective, customers will be supplied with naturstrom green electricity at the standard rate.

Did you know?

nova naturstrom fund – the ecological investment fund from Enovos

By way of its nova naturstrom fund, Enovos launched an investment fund in 2003 with the objective of promoting and exploiting renewable energy resources, energy efficiency and eco-technologies in Luxembourg. Various projects, irrespective of whether they are private or public, receive financial support via this fund. Upon the establishment of the Enovos Foundation in January 2010, the nova naturstrom fund was incorporated into it and is today supported via funding from the Enovos Foundation amounting to EUR 200,000 per year. Thanks to this support, it will be possible to increase the share of renewable energies in the overall national power mix on an on-going basis. Further information can be found at www.fnn.lu.
